INTRODUCTION

This booklet contains a list of all City fees that might be required of a new or expanding business or residential project in Santa Rosa. The purpose of these fees is to pay for the installation of public utilities and service facilities needed to serve the property being developed, to collect charges for the use of certain facilities from those benefitting by those services and to help pay the costs borne by the City in providing preconstruction, construction, inspection and public safety services.

Some fees change on an annual basis; others may be instituted at City Council discretion. Although the information provided here is as current and complete as possible, it is best to check with City staff to ensure that there are no other requirements that your project might need to meet.

PLANNING APPLICATION FEES

Application fees for planning and entitlement permit services are collected at the time an application is submitted. These fees were established by the City Council to more fully recover the costs of staff time spent reviewing and processing the applications (1). These fees are payable at the Planning and Economic Development Department, City Hall Room 3, 100 Santa Rosa Avenue. Please make checks payable to "City of Santa Rosa."

Where there is no fee specified, or if additional or enhanced services are required, the fee shall be determined by the Director of Planning and Economic Development. The determination will be based on the full cost recovery hourly rate for the staff involved (2) as well as for any hard costs associated with outside agency fees, public notices, advertisements, and postage.

In addition to the fees shown below, your project may require an Environmental Impact Report (EIR) pursuant to the California Environmental Quality Act (CEQA). These reports are funded by the applicant, managed by City staff and completed by a private professional consultant. The developer is financially responsible for any mitigation measures identified by the Environmental Impact Report.

IMPACT FEES

This section contains information on various impact fees which are charged to pay for infrastructure or services which are needed to serve development. Development projects may be subject to more than one of these impact fees.

CAPITAL FACILITIES FEE

The Capital Facilities Fee was established to pay for certain public infrastructure facilities required to serve new development within the City. Infrastructure funded by the CFF includes street widening, traffic signals, freeway interchanges, bike paths, and storm drains. This fee is typically paid prior to the issuance of a building permit, at the Planning and Economic Development Department, City Hall Room 3, 100 Santa Rosa Avenue.

Notes:

- ◆ Quadrant boundaries are U.S. 101 and Santa Rosa Creek.
- ◆ "Other uses" are determined by the Director of Planning and Economic Development. Other uses include all uses not specified above, including, but not limited to, hospitals, rest homes, other care facilities, and day care centers.
- ◆ To determine a fee for service stations, an estimate of square footage is made utilizing the number of cars which can be served simultaneously. Multiply the number of cars which can be served by 250 square feet. The result of this calculation is added to any other retail square footage proposed to determine the fee paid.
- ◆ The Capital Facilities Fee is adjusted on January 1 of each calendar year by a percentage equal to the percentage change in the Engineering News-Record Construction Cost Index for San Francisco for the 12-month period ending November 30th of the prior year and the Real Estate Valuation. This adjustment will offset the effects of inflation-related cost increases or any deflation-related cost decreases.

Applications Subject to Capital Facilities Fee

- ◆ Applications for building permits to construct a residential or non-residential structure.
- ◆ Applications for conditional use permits or zoning clearances to change a building's use which does not require a building permit to initiate the use. The fee charged shall be the incremental difference between the current Capital Facilities Fee for the prior use and the current Capital Facilities Fee for the new use.

Exemptions

The following actions and uses are exempt from the requirement to pay the CFF (Capital Facilities Fee):

- ◆ Alteration, remodeling, or reconstruction of a nonresidential structure which does not increase the gross floor area above what was in existence and in use on the effective date of this chapter. (*Effective date of Capital Facilities Fee Chapter was August 25, 1997.*)
- ◆ A development project which the developer establishes to the City's satisfaction will not generate any additional need for public facilities, services or amenities, or any other impact for which a mitigation and/or fee is otherwise required. The burden of establishing by satisfactory proof the applicability and elements of this subsection shall be on the developer. No exemption or limit shall be granted pursuant to this section unless a finding is made, based on satisfactory factual proof provided by the developer, that the requirements of this subsection have been satisfied.
- ◆ No CFF shall be due if the CFF was previously paid in full for a particular property, and no refund has been issued.
- ◆ There are no other exemptions to the CFF.

Notes:

- 1) Alteration, remodeling or reconstruction to an existing residential unit creating 400 square feet or more of additional living space is no longer subject to CFF as of July 21, 2018 (Ordinance No. ORD-2018-013).

OTHER IMPORTANT INFORMATION REGARDING UTILITIES FEES

- ◆ Mixed residential/commercial uses must be separately metered and pay separate demand fees.
- ◆ Demand fees for shell non-residential or industrial buildings will be calculated at the warehouse rate and will be due prior to issuance of the Building Permit. The irrigation demand fees will be due prior to setting the irrigation meter. Any types of use to occupy the shell building or portions of the shell building with a higher rate of flow than warehouse will have additional fees due prior to issuance of the Tenant Improvement Permit.
- ◆ When one unit on a lot is proposed to be connected to City wastewater or water, all units on the lot must be connected.
- ◆ Any NEW Accessory Dwelling unit that is over 750 square feet will require demand fees. It is recommended that all Accessory Dwelling units have a separate meter, but it is not required unless over 750 square feet. Contact Water Engineering Services for more information

Water Fee Scenarios:

#1: A Single Family Dwelling on a 6,500 sq ft subdivision lot with sewer and water stubbed out to the property:

Water Demand Fee	\$5,420.00
Water Processing Fee	\$510.00
1" water meter	\$360.00
Sewer Demand Fee	\$7,375.00
Sewer Processing Fee	\$510.00
Total	\$14,175.00

#2: A 10,000 sq ft office building on a vacant lot. Estimated peak monthly irrigation use is 20,000 gallons per month.

For office use, the average monthly flow is 960 gallons per month per thousand square feet (see Table 15-1 of Ordinance #4034). $960 \times 10 = 9,600$ gallons per month. We always round up to the nearest 1,000 gallon, so in this case the purchase amount is 10,000 gallons. This is the minimum water & sewer demand purchase. If use is higher, additional demand must be purchased. Water is purchased at a rate of \$283 per thousand gallons per month. Sewer at a rate of \$1,505 per thousand gallons per month.

Domestic Water Demand Fee	$10 \times \$283 =$	\$2,830.00
Irrigation Water Demand Fee	$20 \times \$283 =$	\$5,660.00
Water Processing Fee		\$510.00
2 - 1" water meters	(irr. & dom.) $\$360 \times 2 =$	\$720.00
Sewer Demand Fee	$10 \times \$1,505.00 =$	\$15,050.00
Sewer Processing Fee		\$510.00
Total		\$25,280.00

In each of these scenarios additional fees may apply. For example fire flow tests may be required, meter sizes may vary, backflow inspections may be necessary, or if fire sprinklers are required, additional meter and backflow fees will also apply.

FOR MORE INFORMATION, CONTACT WATER ENGINEERING SERVICES AT (707) 543-4200 OR WATERENG@SRCITY.ORG

These fees are used to help fund the costs of acquiring and constructing neighborhood and community parks. These fees are collected at the time of building permit issuance and are paid at the Planning and Economic Development Department, City Hall Room 3, 100 Santa Rosa Avenue. *(Effective January 1, 2019.)*

Most residential projects pay the housing impact fee as outlined in the Housing Allocation Plan, City Code Chapter 21-02. This fee is paid at the Planning and Economic Development Department, City Hall Room 3, 100 Santa Rosa Avenue.

The housing impact fee for for-sale units is based on the unit’s sales price and is calculated by multiplying the sales price by 2.5%. The fee is paid no later than the close of escrow or one year following the final inspection for the unit, whichever is sooner.

The housing impact fee for rental units is based on the unit’s size. The fee schedule is below.

ENGINEERING FEES

1. Development Engineering and Inspection Fees

These fees are charged at the time of service and are designed to help recover a portion of the costs associated with providing engineering review and inspection services. Fees are paid at Engineering Development Services, City Hall Room 5, 100 Santa Rosa Avenue.

Map and improvement plan check fees for subdivisions are collected with the submittal of the plan check package.

Inspection fees and material inspection fee is collected at the time of the final map recordation. These fees cover inspection and materials testing of public improvements constructed by development projects to ensure quality in infrastructure which will become the City's maintenance responsibility.

Time of Payment:

Improvement Plan Check fees and Subdivision Lot fees are collected with submittal of the plan check application. Non-Subdivision Improvement Plan Check fees are collected at the time improvement plans are submitted.

The amount of the Plan Check and Subdivision Lot fee is determined by City staff based on the estimated value of the public improvements and the applicable engineering fee schedule and rate. The amount due with the first plan check is 50% of the total fee, the amount due with the second plan check is 25% of the total fee, and the amount due with the third plan check is 25% of the total fee.

If additional fees are due, based on an updated engineer's estimate, this added amount shall be paid prior to signing of improvement plan mylars.

Public Improvement Inspection and Material Testing fees are paid at time of Final Map recordation.

Plan check fees paid will cover the initial plan review and two subsequent plan checks for a total of three. Additional required plan checks will be performed at the staff hourly billing rate. A deposit will be required to pay for the necessary staff work.

The following fee schedule shall apply to public improvements constructed by private development, whether or not such projects have engineered plans signed by the City Engineer.

BUILDING FEES

BUILDING PLAN CHECK AND PERMIT FEES

Building plan check and permit fees are established by City ordinance to recover the estimated operating costs of the Building Division. These fees are reviewed on an annual basis. On January 11, 2014, the Santa Rosa City Council approved a fee resolution to modify building permit and plan check fees to be cost based. The valuation calculation will still be used in determining some of the auxiliary fees. Valuation is the total value of the construction work covered by the permit including materials, labor, profit and overhead.

Fees are paid at the Planning and Economic Development Department, City Hall Room 3, 100 Santa Rosa Avenue.

(Annually adjusted): Fees are adjusted annually in July based on the percentage change in the Bureau of Labor Statistics San Francisco/Oakland/San Jose Consumer Price Index – All Urban Consumers (CPI-U).

1. PLAN REVIEW FEES:

a) Plan Review Fee Schedule

When a plan or other data is required to be reviewed, a plan review fee shall be paid at the time of submitting plans and specifications for review. Said plan review fee shall be based upon the type of occupancy and size of the proposed project (see table starting at Page 28). The plan review fees specified in this subsection are separate fees from the permit fees and are in addition to the permit fees. Plan Review fees are applicable to the initial plan review and two additional reviews. After third review the Building Official may assess a new plan check fee or charge hourly rates established by this fee schedule to complete the plan review process.

b) National Pollutant Discharge Permit Review (NPDES)

5% of calculated plan check fee of all valuation based building permits for new buildings or new grading projects.

c) First Master Plan Review Fee

This fee will be paid by the applicant or his/her representative at the time of master plan submittal. The applicant or his/her representative will pay a Plan Review Fee based on the type of occupancy and size of the proposed project. See (see table starting at Page 39).

d) Subsequent Master Plot Plan Review Fee

See Item 48 – Single Family Production / Repeat under Building New Construction.

e) Additional Plan Review, Master Plan Change or Review for New Code

When plans submitted for review are incomplete or changed so as to require additional plan review, an additional plan review fee shall be charged at an hourly rate established by the latest Santa Rosa City Council Fee Resolution.

f) Expedited Plan Review

The fee is paid at time of building permit application and shall be sixty-five percent (65%) of the building permit fee. The fee is for the additional costs associated with providing the service. The Building Official must grant approval for an expedited plan review before the building permit application can be submitted.

2. PERMIT FEES:

The construction plan check and/or inspection (permit) fees for the City of Santa Rosa area calculated based upon the square footage of the construction and the designated occupancy. The table starting at Page 29 identifies the base fees for specific size tiers (square feet) for each occupancy classification, as well as the additional incremental cost per square foot above the base size. Both plan check and inspection fees for new construction include mechanical, plumbing, and electrical items associated with the construction. The plan check fee includes the initial plan check and two submittals. The inspection (permit) fee includes initial inspections as well as one re-inspection.
