INTRODUCTION

This booklet contains a list of all City fees that might be required of a new or expanding business or residential project in Santa Rosa. The purpose of these fees is to pay for the installation of public utilities and service facilities needed to serve the property being developed, to collect charges for the use of certain facilities from those benefitting by those services and to help pay the costs borne by the City in providing preconstruction, construction, inspection and public safety services.

Some fees change on an annual basis; others may be instituted at City Council discretion. Although the information provided here is as current and complete as possible, it is best to check with City staff to ensure that there are no other requirements that your project might need to meet.

PLANNING APPLICATION FEES

Application fees for planning and entitlement permit services are collected at the time an application is submitted. These fees were established by the City Council to more fully recover the costs of staff time spent reviewing and processing the applications (1). These fees are payable at the Planning and Economic Development Department, City Hall Room 3, 100 Santa Rosa Avenue. Please make checks payable to “City of Santa Rosa.”

Where there is no fee specified, or if additional or enhanced services are required, the fee shall be determined by the Director of Planning and Economic Development. The determination will be based on the full cost recovery hourly rate for the staff involved (2) as well as for any hard costs associated with outside agency fees, public notices, advertisements, and postage.

In addition to the fees shown below, your project may require an Environmental Impact Report (EIR) pursuant to the California Environmental Quality Act (CEQA). These reports are funded by the applicant, managed by City staff and completed by a private professional consultant. The developer is financially responsible for any mitigation measures identified by the Environmental Impact Report.

FOOTNOTES:

(1) On January 21, 2014, the Santa Rosa City Council adopted Resolution No. 28412, establishing fee categories for development services with cost recovery goals to be achieved as follows:

- *Non-fee services. Examples include answering zoning questions, pre-application staff consultation meetings, and zoning clearances.*
- *Public Benefit services set at 0% to 30% cost recovery. Examples include homeowner landmark alteration permits and fences, daycare, and neighbor/non-applicant appeals.*
- *Standard services set at 75% cost recovery within five years. Examples include use permits, design review, and hillside permits.*
- *Private Benefit services set at 100% cost recovery within five years. Examples include vacations of right of way, utility certificates, and general plan amendments.*

- (2) *Full cost recovery hourly rate for City/Senior Planner is \$195/hour. Other rates may apply depending on the staff required to conduct the work.*
- (3) *Also requires Public Hearing fee for Planning Commission and Public Hearing fee for City Council.*
- (4) *Consistent with General Plan Policy YF-B-3, planning application fees taken in will be refunded to the applicant following demonstration by the applicant that the use has been initiated and in compliance with project approval.*
- (5) *Also requires Public Hearing fee for Planning Commission.*
- (6) *Also requires Public Hearing fee for appropriate review authority.*
- (7) *Also requires Public Hearing fee for Design Review Board.*
- (8) *An Environmental Assessment is required to determine compliance with the California Environmental Quality Act (CEQA). The fees are established as a baseline from which to conduct the initial review. Should additional or enhanced services be required, the fee shall be determined by the Director of Planning and Economic Development. The determination will be based on the full cost recovery hourly rate for the staff involved as well as for any hard costs associated with outside agency fees, public notices, advertisements, and postage.*
- (9) *Also requires Public Hearing fee for Cultural Heritage Board.*
- (10) *Pursuant to City Council Ordinance No.3146, development applications for property located within the Southeast and Southwest Area Plan boundaries are subject to this fee which recoups the cost associated with the preparation of the Area Plans. One half of the fee shall be paid prior to the acceptance of a development application. The remaining half of the fee shall be paid prior to approval of the final map, or if no final map is required, prior to issuance of a building permit. Development applications as defined in the Ordinance include: rezoning, tentative and parcel maps, design review permits, conditional use permits, utility certificates, and building permits.*
- (11) *Also requires Public Hearing fee for Subdivision Committee.*
- (12) *Also requires Public Hearing fee for Zoning Administrator.*
- (13) *Required only when a public hearing is requested in writing by any interested person prior to date of decision.*
- (14) *Examples include Zoning Verification and Tentative Map Status letters.*
- (15) *50% of the standard application fee for an amendment to an approved permit.*
- (16) *The fee for a State Density Bonus application includes staff time spent processing the intake of the application, referrals to City departments and outside agencies, and the Planner's time ensuring that the request is consistent with the Zoning Code and State Density Bonus requirements. The State Density Bonus application is typically combined with other associated entitlement applications that have their own fees. A request for a Supplemental Density Bonus requires a separate Minor Use Permit application and associated fees.*

IMPACT FEES

This section contains information on various impact fees which are charged to pay for infrastructure or services which are needed to serve development. Development projects may be subject to more than one of these impact fees.

CAPITAL FACILITIES FEE

The Capital Facilities Fee was established to pay for certain public infrastructure facilities required to serve new development within the City. Infrastructure funded by the CFF includes street widening, traffic signals, freeway interchanges, bike paths, and storm drains. This fee is typically paid prior to the issuance of a building permit, at the Planning and Economic Development Department, City Hall Room 3, 100 Santa Rosa Avenue.

- ◆ "Other uses" are determined by the Director of Planning and Economic Development. Other uses include all uses not specified above, including, but not limited to, hospitals, rest homes, other care facilities, and day care centers.
- ◆ To determine a fee for service stations, an estimate of square footage is made utilizing the number of cars which can be served simultaneously. Multiply the number of cars which can be served by 250 square feet. The result of this calculation is added to any other retail square footage proposed to determine the fee paid.
- ◆ These fees will be adjusted annually each July based on the percentage change in the Bureau of Labor Statistics San Francisco/Oakland/San Jose Consumer Price Index — all Urban Consumers (CPI -U).

Applications Subject to Capital Facilities Fee

- ◆ Applications for building permits to construct a residential or non-residential structure.
- ◆ Applications for conditional use permits or zoning clearances to change a building's use which does not require a building permit to initiate the use. The fee charged shall be the incremental difference between the current Capital Facilities Fee for the prior use and the current Capital Facilities Fee for the new use.

Exemptions

The following actions and uses are exempt from the requirement to pay the CFF (Capital Facilities Fee):

- ◆ Alteration, remodeling, or reconstruction of a nonresidential structure which does not increase the gross floor area above what was in existence and in use on the effective date of this chapter. (*Effective date of Capital Facilities Fee Chapter was August 25, 1997.*)
- ◆ A development project which the developer establishes to the City's satisfaction will not generate any additional need for public facilities, services or amenities, or any other impact for which a mitigation and/or fee is otherwise required. The burden of establishing by satisfactory proof the applicability and elements of this subsection shall be on the developer. No exemption or limit shall be granted pursuant to this section unless a finding is made, based on satisfactory factual proof provided by the developer, that the requirements of this subsection have been satisfied.
- ◆ No CFF shall be due if the CFF was previously paid in full for a particular property, and no refund has been issued.
- ◆ There are no other exemptions to the CFF.

Notes:

- 1) Alteration, remodeling or reconstruction to an existing residential unit creating 400 square feet or more of additional living space is no longer subject to CFF as of July 21, 2018 (Ordinance No. ORD-2018-013).

- ◆ Demand fees for shell non-residential or industrial buildings will be calculated at the warehouse rate and will be due prior to issuance of the Building Permit. The irrigation demand fees will be due prior to setting the irrigation meter. Any types of use to occupy the shell building or portions of the shell building with a higher rate of flow than warehouse will have additional fees due prior to issuance of the Tenant Improvement Permit.
- ◆ When one unit on a lot is proposed to be connected to City wastewater or water, all units on the lot must be connected.

Water Fee Scenarios:

#1: A Single Family Dwelling on a 6,500 sq ft subdivision lot with sewer and water stubbed out to the property:

| | |
|----------------------|--------------------|
| Water Demand Fee | \$5,420.00 |
| Water Processing Fee | \$510.00 |
| 1" water meter | \$360.00 |
| Sewer Demand Fee | \$7,375.00 |
| Sewer Processing Fee | \$510.00 |
| Total | \$14,175.00 |

#2: A 10,000 sq ft office building on a vacant lot. Estimated peak monthly irrigation use is 20,000 gallons per month.

For office use, the average monthly flow is 960 gallons per month per thousand square feet (see Table 15-1 of Ordinance #4034). $960 \times 10 = 9,600$ gallons per month. We always round up to the nearest 1,000 gallon, so in this case the purchase amount is 10,000 gallons. This is the minimum water & sewer demand purchase. If use is higher, additional demand must be purchased. Water is purchased at a rate of \$283 per thousand gallons per month. Sewer at a rate of \$1,505 per thousand gallons per month.

| | | |
|-----------------------------|----------------------------------|--------------------|
| Domestic Water Demand Fee | $10 \times \$283 =$ | \$2,830.00 |
| Irrigation Water Demand Fee | $20 \times \$283 =$ | \$5,660.00 |
| Water Processing Fee | | \$510.00 |

HOUSING IMPACT FEE (Effective January 1, 2019)

The Housing Allocation Plan was established to assist in the development of affordable housing in Santa Rosa. Most residential projects pay the housing impact fee as outlined in the Housing Allocation Plan, City Code Chapter 21-02. This fee is paid at the Planning and Economic Development Department, City Hall Room 3, 100 Santa Rosa Avenue.

The housing impact fee for for-sale units is based on the unit’s sales price and is calculated by multiplying the sales price by 2.5%. The fee is paid no later than the close of escrow or one year following the final inspection for the unit, whichever is sooner.

The housing impact fee for rental units is based on the unit’s size. The fee schedule is below.

ENGINEERING FEES

1. Development Engineering and Inspection Fees

These fees are charged at the time of service and are designed to help recover a portion of the costs associated with providing engineering review and inspection services. Fees are paid at Engineering Development Services, City Hall Room 5, 100 Santa Rosa Avenue.

Map and improvement plan check fees for subdivisions are collected with the submittal of the plan check package.

Inspection fees and material inspection fee is collected at the time of the final map recordation. These fees cover inspection and materials testing of public improvements constructed by development projects to ensure quality in infrastructure which will become the City's maintenance responsibility.

Time of Payment:

Improvement Plan Check fees and Subdivision Lot fees are collected with submittal of the plan check application. Non-Subdivision Improvement Plan Check fees are collected at the time improvement plans are submitted.

The amount of the Plan Check and Subdivision Lot fee is determined by City staff based on the estimated value of the public improvements and the applicable engineering fee schedule and rate. The amount due with the first plan check is 50% of the total fee, the amount due with the second plan check is 25% of the total fee, and the amount due with the third plan check is 25% of the total fee.

If additional fees are due, based on an updated engineer's estimate, this added amount shall be paid prior to signing of improvement plan mylars.

Public Improvement Inspection and Material Testing fees are paid at time of Final Map recordation.

Plan check fees paid will cover the initial plan review and two subsequent plan checks for a total of three. Additional required plan checks will be performed at the staff hourly billing rate. A deposit will be required to pay for the necessary staff work.

The following fee schedule shall apply to public improvements constructed by private development, whether or not such projects have engineered plans signed by the City Engineer.

| Fee Schedule | | Engineering Fees Rate | | |
|---|--|--------------------------------------|--------------------------------------|---------------|
| Estimated Construction Value of Public Improvements | Fee Computation | Inspection and Materials Testing Fee | Plan Review and Lot Inspection Fee * | Combined Rate |

Development: A project with a single subdivision agreement including a performance bond (or other approved guarantee) or a project on a single parcel.*

*The City Engineer may determine that two projects are a single project for the purpose of this definition if the projects; (1) are adjacent; (2) have each been conditioned to perform the same off-site public improvements; (3) are submitted, plan-checked and inspected at the same time; and (4) are represented by the same civil engineer.

BUILDING FEES

BUILDING PLAN CHECK AND PERMIT FEES

Building plan check and permit fees are established by City ordinance to recover the estimated operating costs of the Building Division. These fees are reviewed on an annual basis. On January 11, 2014, the Santa Rosa City Council approved a fee resolution to modify building permit and plan check fees to be cost based. The valuation calculation will still be used in determining some of the auxiliary fees. Valuation is the total value of the construction work covered by the permit including materials, labor, profit and overhead.

Fees are paid at the Planning and Economic Development Department, City Hall Room 3, 100 Santa Rosa Avenue.

(Annually adjusted): Fees are adjusted annually in July based on the percentage change in the Bureau of Labor Statistics San Francisco/Oakland/San Jose Consumer Price Index – All Urban Consumers (CPI-U).

1. PLAN REVIEW FEES:

a) Plan Review Fee Schedule

When a plan or other data is required to be reviewed, a plan review fee shall be paid at the time of submitting plans and specifications for review. Said plan review fee shall be based upon the type of occupancy and size of the proposed project (see table starting at Page 28). The plan review fees specified in this subsection are separate fees from the permit fees and are in addition to the permit fees. Plan Review fees are applicable to the initial plan review and two additional reviews. After third review the Building Official may assess a new plan check fee or charge hourly rates established by this fee schedule to complete the plan review process.

b) National Pollutant Discharge Permit Review (NPDES)

5% of calculated plan check fee of all valuation based building permits for new buildings or new grading projects.

c) First Master Plan Review Fee

This fee will be paid by the applicant or his/her representative at the time of master plan submittal. The applicant or his/her representative will pay a Plan Review Fee based on the type of occupancy and size of the proposed project. See (see table starting at Page 39).

d) Subsequent Master Plot Plan Review Fee

See Item 48 – Single Family Production / Repeat under Building New Construction.

e) Additional Plan Review, Master Plan Change or Review for New Code

When plans submitted for review are incomplete or changed so as to require additional plan review, an additional plan review fee shall be charged at an hourly rate established by the latest Santa Rosa City Council Fee Resolution.

f) Expedited Plan Review

The fee is paid at time of building permit application and shall be sixty-five percent (65%) of the building permit fee. The fee is for the additional costs associated with providing the service. The Building Official must grant approval for an expedited plan review before the building permit application can be submitted.

2. PERMIT FEES:

The construction plan check and/or inspection (permit) fees for the City of Santa Rosa area calculated based upon the square footage of the construction and the designated occupancy. The table starting at Page 29 identifies the base fees for specific size tiers (square feet) for each occupancy classification, as well as the additional incremental cost per square foot above the base size. Both plan check and inspection fees for new construction include mechanical, plumbing, and electrical items associated with the construction. The plan check fee includes the initial plan check and two submittals. The inspection (permit) fee includes initial inspections as well as one re-inspection.

BUILDING VALUATION DATA (COST PER SQUARE FOOT)

Valuation table is used to assist in calculating State fees and when the proposed project requires an alternative method to determine plan review and inspection fees.

A Business Tax Certificate is proof of payment of Santa Rosa's business tax indicating tax period covered and applies to businesses that operate in the City limits. This includes all contractors who perform work in the City. Business Tax Certificates can be obtained online at SantaRosa.bizlicenseonline.com, at available kiosks at 90 and 100 Santa Rosa Ave, by calling toll free (855) 219-4339, or by mailing printed forms or renewal packet to City of Santa Rosa, c/o MuniServices, PO Box 1556, Santa Rosa, CA 95402. For businesses generating more than \$25,000 in gross receipts in a calendar year, in addition to the \$25 shown above, additional tax is assessed as follows:

In addition to the business tax mentioned above, there is a Compliance Review Fee that is also collected when paying Business Taxes, \$25 for New Applications and \$10 for Annual Renewals.

All businesses in the city limits need a zoning clearance. Visit Planning and Economic Development at City Hall, Room 3 (Monday-Thursday, 8:30 a.m. – 2:30 p.m.)
