BOIL WATER NOTICE

BOIL YOUR WATER BEFORE USING

Failure to follow this advisory could result in stomach or intestinal illness.

Due to water system pressure loss attributed to the Tubbs Fire, the State Water Resources Control Board, Division of Drinking Water in conjunction with the Sonoma County Health Department, and the City of Santa Rosa Water System are advising residents of the Fountaingrove Area to use boiled tap water or bottled water for drinking and cooking purposes as a safety precaution. This precaution only applies to residents who live East of Mendocino Avenue, North of Chanate Road, West of Fountain Grove Parkway, and South of Mark West Springs Road and all residents who access their home off of Fountaingrove Parkway along Rincon Ridge Drive, Sedgemoore Drive, Hansford Court, and Parker Hill Road. Please be aware that other than this identified area, the water system has not been compromised. Staff are continuing regular water quality sampling on the entire system to ensure water quality standards are met.

DO NOT DRINK THE WATER WITHOUT BOILING IT FIRST. Bring all water to a boil, **let it boil for one (1) minute**, and let it cool before using, or use bottled water. Boiled or bottled water should be used for drinking and food preparation **until further notice**. This is the preferred method to assure that the water is safe to drink.

Optional alternative to include for prolonged situations where it fits.

- An alternative method of disinfection for residents that are not able to boil their water is to use fresh, unscented, liquid household bleach. To do so, add 8 drops (or 1/8 teaspoon) of bleach per gallon of clear water or 16 drops (or 1/4 teaspoon) per gallon of cloudy water, mix thoroughly, and allow it to stand for 30 minutes before using. A chlorine-like taste and odor will result from this disinfection procedure and is an indication that adequate disinfection has taken place.

We will inform you when tests show that water is safe to drink and you no longer need to boil your water. Please use this precaution until further notice.

For more information call:
