

Beginning June 1, 2020, CityBus will begin operating a new schedule with additional trips as part of its ongoing response to COVID-19. The new schedule will be in effect until further notice. CityBus intends these changes to provide a more useful service for all returning transit users as Sonoma County begins to reopen. As CityBus works to restore transit services within the financial constraints brought about by the COVID-19 pandemic, our top priority will continue to be ensuring the highest level of safety possible for our passengers and employees. On June 1, 2020 and until further notice, CityBus will be operating the following routes and services. Please read the description fully. We appreciate your patience during this transition.
