

SANTA ROSA RURAL CEMETERY

MEMORIAL PROGRAM

PURPOSE

The Memorial Program allows individuals to honor a loved one whose burial site is elsewhere (or unknown) by installing a memorial stone in Santa Rosa Rural Cemetery's Memorial and Habitat Garden.

THE MEMORIAL

The memorial will be a small stone about 12" in diameter upon which will be mounted a 6" x 6" cast bronze plaque which may contain up to five lines of print, with up to 22 letters per line. The stones will be permanently mounted in the Memorial Garden containing California native plants just south of the Franklin Avenue entrance to the Cemetery.

COST

The total cost for the stone, plaque and mounting, along with a donation to help provide ongoing maintenance for the Cemetery, is currently \$800.

PROCESS

Interested individuals should contact Bill Montgomery at (707) 573-0103 to arrange to view the garden, the sample marker and to discuss details and specific location. It is estimated that it will take at least three months to complete the installation.

DISCLAIMER

Because the Rural Cemetery is supported primarily by donations and volunteers, the Preservation Committee cannot be responsible in the unlikely event that a marker is defaced or removed. There is also no guarantee made as to the maintenance of the area. Maintenance will be dependent on the time of year and availability of volunteers.
